

## How to measure for your correct size

- 1 Take a current garment equivalent to the one(s) you require.  
*eg. playing top (singlet), polo, playing shorts, hoodie, etc.*
- 2 Be sure it's one that fits you the way you like it to.
- 3 **For tops** (as sample picture below) - place a measuring tape from armpit to armpit.
- 4 Note the measurement length in centimetres, known as the  $\frac{1}{2}$  **Chest.Width cm** - stated on Size Chart.
- 5 Using the **Size Chart** - choose the closest size to your measurement result.
- 6 **For shorts & tights** (relaxed waist – as sample picture below) – DO NOT stretch the waist to get your measurement.
